

DANIEL ONYEKACHUKWU OKAFOR

Junior Software Engineer | C# .NET | SQL Server | ASP.NET Core

07400 097 758 | austzdee@yahoo.com | portfolio | linkedin.com/in/daniel-okafor | Manchester, UK

Summary

Junior Software Engineer with hands-on experience building and deploying full-stack applications using ASP.NET Core, C#, React, TypeScript, and SQL Server. Delivered measurable business impact through custom web development, API design, and product/UX improvements. Comfortable across the full SDLC, from requirements analysis to CI/CD deployment on Azure.

Experience

Software Engineer (Remote) 2025 – 2026

Obligate Solutions

- Designed and developed custom websites using HTML, CSS, JavaScript, ReactJS, and WordPress; integrated Google Firebase to manage and persist user-submitted data.
- Redesigned lead generation forms, driving a **350% increase in View-to-Lead conversion (0.5% → 2.25%)**, directly increasing qualified inbound leads.
- Launched a free knowledge base and a streamlined registration flow, lifting overall **user engagement by 15%**.
- Gathered requirements and shaped the product roadmap, delivering a **15% improvement in website usability** through iterative UX enhancements.

Operations Associate 2024 – Present

Amazon Logistics (AMZL DXM5)

- Investigate and resolve inventory, shipment, and fulfilment discrepancies across a **high-volume logistics operation**, maintaining service accuracy and on-time delivery.
- Identify recurring process gaps and implement corrective workflows, contributing to **measurable reductions in discrepancy resolution time**.
- Collaborate cross-functionally to improve workflow efficiency, operational accuracy, and continuous improvement initiatives.

Customer Service Representative 2009 – 2023

Multiple Organisations, Nigeria

- 14 years' experience delivering customer support and stakeholder communication across fast-paced service environments.

Projects

StockSync – Inventory Management Platform

white-field-06b923110.7.azurestaticapps.net

- Built and deployed a full-stack inventory management platform (ASP.NET Core .NET 10, React, TypeScript, SQL Server) with secure RESTful APIs for stock allocation, warehouse operations, and reporting **across 40+ SKUs**.
- Implemented JWT authentication, role-based authorization, audit logging, and low-stock monitoring, reducing **manual stock-check time by 42%**.
- Built CI/CD pipelines with GitHub Actions, cutting **deployment time by 60%** for reliable delivery to Azure.

Workout Tracker Application

workout-tracker-client-seven.vercel.app

- Built and deployed a full-stack fitness tracking app (ASP.NET Core .NET 10, React, TypeScript, PostgreSQL) with JWT-secured workflows.
- Migrated data storage from SQLite to PostgreSQL, improving **query performance by 30%** for scalable cloud hosting.
- Delivered dashboard analytics giving users workout summaries and progress insights, **lifting weekly active usage by 20%**.

Skills

Languages & Backend	C#, ASP.NET Core, .NET, RESTful APIs, OOP, SOLID, Clean Architecture, Design Patterns
Data	SQL Server, Azure SQL Database, PostgreSQL, SQLite, EF Core, Data Modelling, Query Optimisation
Frontend	React, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, Context API, Vite
Cloud & DevOps	Azure App Service, Azure Static Web Apps, Docker, Git/GitHub, GitHub Actions CI/CD, Postman, Swagger/OpenAPI
Testing & Tools	xUnit, Integration Testing, Debugging, Root Cause Analysis, Code Reviews, JWT Auth
AI-Assisted Dev	GitHub Copilot, ChatGPT, Prompt Engineering

Certifications

Advanced Diploma in Software Development (Distinction) – C#, .NET, SQL, Azure 04/2025 – 02/2026

Pitman Training, UK (Amazon Career Choice Programme)

Front-End Plus / Web Development 09/2023 – 01/2025

Learning People Ltd, UK

Education

Professional Diploma in IT, Software Engineering 06/2012 – 01/2015

NIIT, Nigeria

Eligible to work in the United Kingdom | Active GitHub contributor with live public deployments
